

EYE EXAMINATION REPORT

The undersigned has requested entrance into a welder training program.

Welders need to be able to focus clearly at distances that are closer than a "reading distance". Preferably 12" to 14".

Proof of an eye examination in the previous 6 months would be considered suitable if the results can be transferred to this eye examination report.

APPLICANTS INFORMATION

Name: _____ Tel: () _____

Vision requirements:

- a) Distant vision shall equal 20/30 or better in at least one eye, either corrected or uncorrected.
- b) Near vision acuity shall permit reading 0.5 m continuous text (N-4) at a 30 cm to 40 cm test distance, with or without corrective eye wear. The following may be considered equivalent:
 - a. Times Roman N-4 at 30 to 40 cm
 - b. Reduced snellen 40/50
 - c. Jaeger J2 at 30 to 40 cm
- c) Colour definition and recognition should be near normal. Able to discern light (dull) red, yellows, and orange at close viewing range.
- d) Depth perception should be normal, able to detect a dissimilarity of 1/8" or less as when viewing two pens or pencils held side by side (parallel to each other) with the trainee viewing the ends of the pencils from a distance of approx. 1 meter. Objects would be held approx. parallel to the floor and at a height which would bring the ends (only) of the objects into applicant's line of sight.

Vision Test Results: (without correction)

Distant vision: RE _____ LE _____

Near vision: RE _____ LE _____

Vision Test Results: (with correction)

Distant vision: RE _____ LE _____

Near vision: RE _____ LE _____

Are eye glasses/contact lenses required for welder practical training?: YES NO

All eye glasses must meet CSA safety requirements WITH side shields.
